

VARDIS

FOR THE KEEN CARPER

2013

Vardis Tackle is a young, UK company, specialized in carp terminal tackle. It was founded in 2011. The company philosophy is to offer carp terminal tackle products for more affordable prices, without compromising the quality. Easier said than done, nowadays, as competition is fierce. Vardis is aware of this and is convinced that a new company can only make it if it makes a difference. Vardis tries to do this by offering similar products at a lower price or (more importantly) offer new, innovative products - but still for a reasonable price!

In this catalogue you will find a fairly decent range of carp terminal tackle. But... this is only the beginning. With the help of several dedicated, high profile carp anglers we are working very hard to extend the range with products that will give carp anglers more confidence.

We pride ourselves on good quality products for affordable prices, good stock levels and fast delivery times.

For all you keen anglers out there: happy fishing with Vardis products and, please, share your experiences with us!

skinline stripper & puller**
V-01142

Vardis offers a wide range of carp hooklinks for every thinkable rig: from super soft to super stiff. Neutral buoyancy, fast sinking or abrasion resistant... it's all there, in "spot on" colours and various strengthes. The **DOWNFALL** versions (ultra fast sinking) are the latest in hooklinks and really state of the art!

Braids and fluorocarbon

DOWNFALL Super fine hooklink
The finest quality hooklink in the Vardis range and probably even on the market: thin, smooth and extremely fast sinking. Breaking strain: 25 Lb. 20 meter on a spool.

V-00920 - Moss green
V-00921 - Mud brown

Fast sinking hooklink

An extensive range of attractive fast sinking 50/50 hooklinks in three different breaking strains: 15, 25 and 35 Lb. 20 meter on a spool.

V-00922 - Black & white
V-00923 - Olive green
V-00924 - Mud brown
V-00925 - Black & green

Abrasion resistant hooklink

Due to a special treatment these hooklinks are 300% more abrasion resistant than most. Available in three different breaking strains: 15, 25 or 35 Lb. 20 meter on a spool.

V-00926 - Steel grey
V-00927 - Ocean blue
V-00928 - Pitch black

Super soft hooklink

Remarkably soft hooklink made out of 8 ultra fine PE yarns. Available in 20 Lb. 20 meter on a spool.

V-00929 - Moss green

Fluorocarbon hooklink

Top quality fluorocarbon. Ideal for making stiff rigs. Available in 15, 20 and 25 Lb (dia. 0,35 - 0,40 and 0,45 mm). 20 meter on a spool.

V-00901

DOWNFALL Super fine hooklink

Fast sinking hooklink

Abrasion resistant hooklink

Super soft hooklink

Fluorocarbon hooklink

On this page we present all the different skinline hooklinks that we have on offer: semi-stiff and soft, in the standard (sinking) version and the **DOWNFALL** version (ultra fast sinking).

Skinlines

Semi-stiff skinline

Very good quality skinline: easy to strip but doesn't rupture on a figure of 8 knot. Available in 15, 25 and 35 Lb. 20 meter on a spool.

- V-00902 - Moss green
- V-00903 - Mud brown
- V-00904 - Dark grey
- V-00905 - Autumn camou
- V-00906 - Summer camou

Semi-stiff skinline

Soft skinline

Same high quality skinline as our semi-stiff skinline - but soft. Popular because of its great anti tangle properties. Available in 15, 25 and 35 Lb. 20 meter on a spool.

- V-00907 - Moss green
- V-00908 - Mud brown
- V-00909 - Dark grey

Soft skinline

DOWNFALL Semi-stiff skinline

At first glance looks similar to our standard semi-stiff skinline but this version sinks like a brick! Available in 15, 25 and 35 Lb. 20 meter on a spool.

- V-00910 - Moss green
- V-00911 - Mud brown
- V-00912 - Dark grey
- V-00913 - Summer camou
- V-00914 - Autumn camou

DOWNFALL Semi-stiff skinline

DOWNFALL Soft skinline

Very nice quality, soft and extremely fast sinking skinline. Available in 20 and 30 Lb. 20 meter on a spool.

- V-00915 - Summer camou
- V-00916 - Autumn camou

DOWNFALL Soft skinline

Leader lines... one of our strong points! Not only do we carry a wide colour range of lead core lines, we also offer them in two versions: 12 and 16 yarn. And then... there is Vardis **DOWNFALL** Leader Line, the lead free alternative for lead core. Easy to splice and super bottom hugging!

DOWNFALL Leader Line

Lead core (12 yarns)

Lead core (12 yarns)

Lead core (16 yarns)

DOWNFALL Leader Line

This line that has fast become a popular alternative for lead core. Not only is it softer (means: more bottom hugging), it also lasts longer (there is no lead core inside that can break and start to stick out). Easy to splice. 10 meter on a spool. Breaking strength: 45 Lb.

- V-00950 - Camou brown
- V-00951 - Camou green

Lead core (12 yarns)

Has proved its value over the years and is still the most popular leader used throughout Europe. So, we have it: in 8 different colours, matching every thinkable underwater surrounding. Easy to splice. 10 meter on a spool. Breaking strength: 45 Lb.

- V-00800-A - Green
- V-00800-B - Sand
- V-00800-C - Weed spot camou
- V-00800-D - Chameleon
- V-00800-E - Sand spot camou
- V-00800-F - Classic camou brown
- V-00800-G - Classic camou green
- V-00800-H - Dark brown

Lead core (16 yarns)

Very high quality lead core. Because the braid is made of 16 yarns (instead of the usual 12 yarns) it is much tighter, which means that when the lead core breaks (it always does - sooner or later) it won't stick out. Just as easy to splice. 10 meter on a spool. Breaking strength: 45 Lb.

- V-00801-A - Camou green
- V-00801-B - Camou brown

Silicon tube

Silicon tube in various sizes and two popular carp colours. One meter in a blister.

Matte Green

V-00400-05 dia inxout: 0,5 x 1,5 mm
 V-00400-08 dia inxout: 0,8 x 1,8 mm
 V-00400-10 dia inxout: 1,0 x 2,0 mm
 V-00400-15 dia inxout: 1,5 x 2,3 mm
 V-00400-20 dia inxout: 2,0 x 3,0 mm
 V-00400-25 dia inxout: 2,5 x 3,5 mm

Dark brown

V-00401-05 dia inxout: 0,5 x 1,5 mm
 V-00401-08 dia inxout: 0,8 x 1,8 mm
 V-00401-10 dia inxout: 1,0 x 2,0 mm
 V-00401-15 dia inxout: 1,5 x 2,3 mm
 V-00401-20 dia inxout: 2,0 x 3,0 mm
 V-00401-25 dia inxout: 2,5 x 3,5 mm

PVC tube

PVC tube, also known as anti tangle tube. Diameter in x out: 1,0 x 2,0 mm. One meter in a blister.

V-00402 - Matte green

V-00403 - Dark brown

Tungsten tube

Tungsten weighted silicon tube. Extremely soft and heavy. Incredibly bottom hugging. One meter in a blister.

Brown

V-00404-06 dia inxout: 0,6 x 1,85 mm
 V-00404-08 dia inxout: 0,8 x 2,20 mm

Green

V-00405-06 dia inxout: 0,6 x 1,85 mm
 V-00405-08 dia inxout: 0,8 x 2,20 mm

Shrink tube

Good quality shrink tube with a shrink rate of 3:1. 15 pieces of 5 cm in a box.

Green

V-00406-12 dia inxout: 1,2 x 1,3 mm
 V-00406-16 dia inxout: 1,6 x 1,8 mm
 V-00406-20 dia inxout: 2,0 x 2,2 mm
 V-00406-24 dia inxout: 2,4 x 2,6 mm

Brown

V-00407-12 dia inxout: 1,2 x 1,3 mm
 V-00407-16 dia inxout: 1,6 x 1,8 mm
 V-00407-20 dia inxout: 2,0 x 2,2 mm
 V-00407-24 dia inxout: 2,4 x 2,6 mm

Small pieces of silicon and shrink tube are usually used on swivels and hooks, to cover them up, protect them or to keep small rig bits in place. PVC tube is popular because of its great anti tangle properties. Tungsten tube keeps the business end of the line down. We have got it covered...

The Vardis range of small plastic carp terminal tackle parts is a remarkable wide range of precision manufactured components: made in the right sizes, from the right kind of materials (with the correct soft- or stiffness) and in attractive colours.
