Evolution Carp Tackle

PRODUCT CATALOGUE Winter 2014

Welcome to a new era in artificial baits.....

The team at Evo have been working hard to bring something new and very different to the market. We have a great team working on some truly unique ideas. We have had huge success with our Patented “Maggot Ball System” and more recently with our “Corn Ball System”

Our approach has been to make a more “life like” artificial bait. We use food grade top quality materials that are extremely soft, this makes the baits have a unique feel, almost like the real thing!

The "Bait Clip"

Evolution Carp Tackle

The "Bait Clip" has been designed to make attaching a bait to your rig easier. Its simple design enables you to tie a bait to the clip using floss, and then is simply attached to your "D Rig" or tied direct to your hair.

We have made the Bait Clip from a Night Glow Plastic. Simply charge the clip with a torch to give a gentle glow under your bait at night. As many anglers know a glowing bait can often get picked over other baits.

The "Hair Stop"

The "Hair Stop" has been engineered to fit perfectly with our baits.

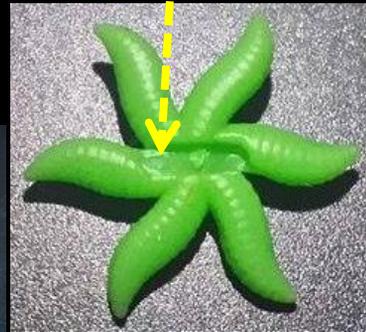

We needed a hair stop that had a flat bottom to work with our clusters...so we have designed one especially for the job.

Because it fits perfectly in to the recess on the underside of the cluster it ensures that it gives the maximum surface contact to stop the cluster being lost! Here is a video showing how they can be used.

<http://youtu.be/wqtfL2uDRul>

The Ball Baits and Cocktail baits are now tied using our Hair Stops!

The Hair Stops come in a handy pack with 200 pcs per pack and come in 6 popular colours

The Maggot Ball Doubles

Patent Pending GB1300893.3

With all of our products there are multiple uses only limited by your imagination!

Pop-up

15 PCS PER PACK

Lug underneath to attach directly to a hook

Tip off your Boilie to make it stand out with a splash of colour!

Ideal for making a Mag Aligner Rig

The Maggot Ball Cluster Evolution Carp Tackle

Patent Pending GB1300893.3

The Clusters have been a huge success since launching them last year. Never did we imagine just how many ways people would find to use these revolutionary baits.

8 PCS PER PACK

Pop-up

The slotted groove underneath the cluster is design for the hair stop to go in and not protrude. This also serves a second purpose, it is where the cluster can be squashed and bent over. This gives a new dimension as to how they can be used.

The Clusters are buoyant and can take on flavours...

The Clusters can easily be made in to "Balls" This was the plan when we first had the idea. Simply push 4-6 clusters on a baiting needle and tie in to a ball. Because the clusters are buoyant they make the perfect Chod Rig...

8 Colours

The Maggot Ball Cluster Evolution Carp Tackle "Naturals Range"

Patent Pending GB1300893.3

Carp fishing with Maggots is becoming ever more popular and especially in the colder months. Winter is now on its way and we have been asked by many of our customers to make our clusters in colours that match the mixed maggots brought from tackle shops.

So as a limited run over the coming winter we have 5 new colours now available:-

The Clusters are buoyant and can take on flavours...

Washed out Red

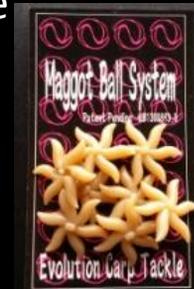

Dirty White

Washed out Pink

Old School Bronze

Baby Blue

The "Maggot Plug"

Patent Pending GB1300893.3

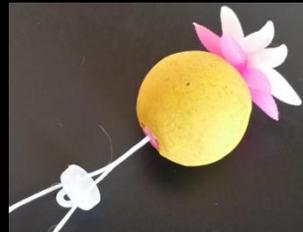

Evolution Carp Tackle

The "Maggot Plug" is made from our unique super soft food grade plastic. The plug is buoyant and can take on flavours. Drill a 6mm hole in your chosen bait (Boilie, Nut or Pop-up etc) Then simply insert the tube in to the bait, this will make the bait more buoyant and also "Tip off" the bait for maximum visual attraction!

Extra clusters can be added to make the bait more buoyant. Mix and match the colours for maximum effect, this also breaks up the outline of the bait.....#evolve

<http://youtu.be/rtshq0sFEil>

There are 6 pcs per pack and come in 6 popular colours. They come in our handy new box, ideal for keeping them safe and adding a touch of your favourite flavour!

THE "BALL BAIT"

The "Ball Baits" are made from 6 Maggot Ball Clusters and have been hugely popular because they give a totally unique bait presentation, there has never been anything like it available before!

The Ball Baits can be used as either a bottom bait or because they are buoyant make an ideal bait for a "Chod Rig" They come in many popular colours.

Now come pre-tied with one of our New Bait Clips! **Pop-up**

They come in our handy new box, ideal for keeping them safe and adding a touch of your favourite flavour! 2 Pcs same colour per pack

THE "COCKTAIL BAIT"

The "Cocktail Baits" are made from 4 Maggot Ball Clusters and one grain of our "Corn Stacks"
This combination gives a totally new bait presentation that is buoyant, highly visual and something totally new. They come in various colours and are all pre-tied ready to go.

Now come pre-tied with one of our New Bait Clips!

They come in our handy new box, ideal for keeping them safe and adding a touch of your favourite flavour!

2 Pcs same colour per pack

Available in 14 popular colour combinations

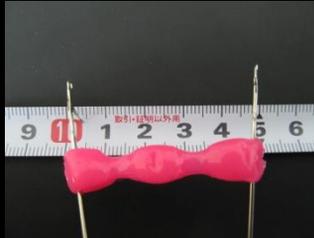

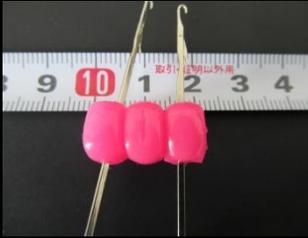

The Corn Ball System Evolution Carp Tackle "CORN STACKS"

We launched the Corn Ball in February this year and it has been a best seller as soon as it hit the shelves.

Again made from our super soft material, the corn looks and feels like the real thing!

The corn stacks are buoyant and can take on flavours....

Pop-up

There are 6 corn stacks per pack, they can be easily cut in to single grains giving 18 pcs per pack. Ideal for tipping off boilies or using on there own!

The Corn Stacks come in 9 popular colours.....

The Corn Ball System

Pop-up "CORN BALLS"

The Corn Balls are 16mm in diameter and like all our products are made from food grade very soft plastic. They are buoyant and can readily take on flavours.

The Corn Balls have been designed to be used with our Maggot Ball System Doubles and Clusters. There are infinite ways in which they can be used.

You get 5 Corn Balls in a pack and come in 6 colours:- Yellow, Candy Pink, White, Glow , Purple and Green and now come in our new handy plastic box.....

We have developed our own take on the ever popular Dumb Bell shaped bait. This shape has been the downfall of many wary carp over the years, which we put down to the actual shape of the bait and the way it acts inside the carps mouth once sucked in. Because it is not a regular shape ie round, the bait swirls around inside the mouth and it makes it much harder for the fish to eject without getting hooked.

16mm
POP-UP
Dumb Bells

We have designed our DBS with a hole on the top and bottom, this is to enable them to be used in conjunction with our Maggot Ball Clusters. Simply add 1 or 2 Clusters to the loop made for the hair stop and pull tight, the hole at the bottom can be used to either fix a shot or swivel to balance the bait as required. The addition of the clusters to the top of the DBS gives a totally unique bait presentation that the carp just have not seen before.

pop-up

We have also added a hair stop slot on the side of the bait, so that it can be used sideways either on top of a boilie or on its own for a different presentation.

The DBS is made from our unique super soft food grade plastic and is buoyant and readily accepts flavours.

The DBS comes with 8 pieces per pack & in 10 popular colours including 2 new colours, Brown to match a pellet and a Cream to match a washed out pellet, other colours are Purple, Pink, Yellow, White, Glow & Orange.

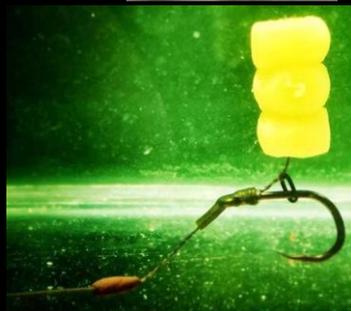

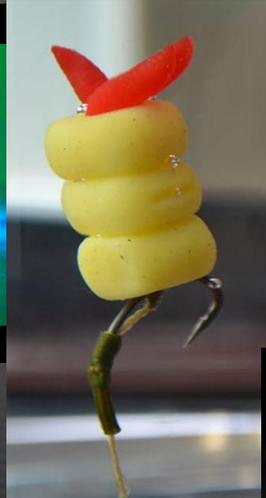

Due to popular demand we have introduced the bulk packs. A great way for customers to get even better value for money! A selection of all the colours in a handy Bulk Pack.

Corn Ball Bulk Pack.....
24 corn stacks 3 of each colour

Maggot Ball Bulk Pack.....
35 clusters 5 of each colour
